

Maryam's Birthday Website — Final Content & Structure

Visual Identity (locked in)

- **Palette:** warm cream (#FBF3E7), blush pink (#E8B4B5), terracotta (#BD6B4C), gold (#C99A3C), warm ink brown (#3B2A20) — plus deep navy (#171a36 → #070819) for the night-sky section only
 - **Fonts:** Fraunces (serif, italic, for big emotional moments) · Caveat (handwritten, for captions/notes) · Quicksand (clean rounded sans, for body/labels)
 - **Texture/feel:** kraft paper grain, tape strips, pinned polaroids, slight rotations — tactile and scrapbook-like, executed with smooth, cinematic motion (parallax, crossfades) rather than flat/static
-

1. Opening — The Envelope

- Visual: sealed envelope/gift labeled "**To: Gurriya**"

- Interaction: scroll is locked — nothing else is reachable until she taps to open it
- On open: ribbon/seal disappears, flap unfolds
- Reveal text: **"Happy Birthday, Gurriya."** / *"I made you something."*
- Scroll cue appears after the reveal

2. Starry Transition

- Background fades from paper into a navy night sky
- Visual elements: glowing moon, a few shooting stars, a heart-shaped constellation that draws itself in
- Text sequence:
 1. *"Every star tonight is for you."* (handwritten, smaller)
 2. **"Happy Birthday, Maryam."** (large glowing serif — the one place her real name appears, since you don't normally call her that)
- Fades back into warm cream tones afterward

3. "Us, by the Numbers" — Stat Deck (3 cards)

1. **Days of Us** — live counter, calculated from a key date (placeholder: Jan 1, 2024 — replace with your

real one)

2. **Laughter stat** — "∞ times you've made me laugh when I was trying to be serious"
3. **Pyaar Mein Izafaa** — a tappable counter starting at 0, button labeled "+1 Izafaa," increments every time it's tapped

4. "Our Story So Far" — Timeline (8 slides)

Alternating left/right photo placeholders, two enlarged spotlight slides:

#	Type	Caption (placeholder)
1	Regular	"jab se tum aayi, sab kuch better lagta hai" — photo: the day it started
2	Regular	"best trip, worse navigation 🗺️" — photo: first trip together
3	Spotlight: Dr. Maryam 🩺	"the only doctor who's ever stolen my heart" — photo: her in the doctor coat

#	Type	Caption (placeholder)
4	Regular	"nothing special, except it was with you" — photo: a random Tuesday
5	Spotlight: Fortuner Drives 🚗	"windows down, you driving, me just staring at you" — photo: you two with the Fortuner
6	Regular	"you fit right in, like you were always supposed to" — photo: with the family
7	Regular	"my favorite kind of day" — photo: just us, no occasion

Each photo flips on click/tap to reveal a hidden note (currently placeholder text — these should be your real secret memories).

5. Big Type Moment

- Full-screen, dramatic pause before the letter
- Large italic serif: **"Gurriya"**
- Subtext: *"my favorite person, every single day"*

6. Closing Letter

Full text as currently drafted (edit freely):

Gurriya,

I don't think I've ever found the right words for this,
lekin main koshish karta rehta hoon.

From the day you became mine, even ordinary
Tuesdays started to feel like something worth
celebrating. Tumhari hassi jo har takleef bhula deti
hai, tumhara "bas paanch minute" jo kabhi paanch
minute nahi hota, tumhara gussa jo do minute
mein pyaar mein badal jaata hai — main sab kuch
se pyaar karta hoon.

Aaj, tumhare birthday pe, main bas yeh kehna
chahta hoon: jitna pyaar kal tha, aaj usmein thodi
aur Izafaa ho gayi hai. Aur yeh izafaa kabhi nahi
rukega — main promise karta hoon.

Meri Babby, meri Wifey, meri Bettu, mera Bacha,
meri Gurriya — chahe jo bhi naam le loon, baat ek
hi hai: tum meri duniya ho.

Always yours,
Bunny
